Key Metrics for AI Search Performance

Measuring Visibility in the Generative Era

- GEO • Measurement • GEO • Measurement • GEO • Measurement brand's performance in AI-powered search, you should track these three key metrics:
- AI visibility score: This measures how frequently your brand is actively recommended by AI search engines 1.
- Citation share: This tracks how often your brand's content is utilized as a source to formulate AI-generated answers 1.
- Share of AI voice (vs. competitors): This evaluates how prominently your brand appears, is mentioned, or is cited in AI answers relative to your competitors 1, 2. Notably, this has become a highly prioritized metric, with 33% of B2B tech CMOs currently Execute? This playbook gives you the framework. The Forensic Diagnostic (\$2,500) gives you the execution plan — custom-built for your business. (317) 376-2110 @outlook.com
